SUMMARY

Full-stack developer with 2.4 years of professional experience and 5 years of hands-on coding knowledge. Proficient in front-end and back-end development, with expertise in technologies such as JavaScript, React, PHP, Python, Docker, and Laravel. Skilled in building scalable, high-performance web applications with a focus on efficiency and maintainability. Passionate about DevOps practices and networking.

Flexing with Neovim—fully embracing keyboard shortcuts and avoiding the mouse entirely for an optimized workflow.

TECHNICAL SKILLS

- **Languages:** JavaScript (Expert), Python, PHP, C, C++, Go
 - **Frameworks/Libraries:** React, Next.js, Flask, Django, Laravel
 - **DevOps Tools:** Docker, Docker Compose, Tmux,
 - **Databases:** MySQL, PostgreSQL, MongoDB
 - **Version Control:** Git, GitHub (SSH integration)
 - **Operating Systems:** Arch Linux, Windows
 - **Networking:** IP/DNS configuration, Static IP setup
 - **Tools:** Neovim, Tmux, tmuxifier
-

PROFESSIONAL EXPERIENCE

NOITAVONNE INDIA

January 2023 - October 2024

FULL STACK DEVELOPER

- Promoted from intern to full-time Full Stack Developer after demonstrating proficiency in both front-end and back-end development.
- Built and maintained scalable web applications using React, and Next.js improving performance and user experience.
- Developed RESTful APIs with Laravel, streamlining the integration between front-end and back-end systems.
- Utilized Docker for containerized environments, ensuring seamless deployment and development consistency.
- Led debugging efforts across the stack, identifying and resolving critical application and performance issues.
- Gained hands-on experience in networking and server infrastructure, managing DNS configurations and troubleshooting network-related issues.
- **Awarded Employee of the Month in July 2023** for outstanding contributions to project development and team collaboration.

NOITAVONNE INDIA

FULL STACK DEVELOPER INTERN

June 2022 - December 2022

- Worked closely with senior developers to design and implement key features of web applications.
- Assisted in building responsive front-end interfaces using React and optimized the back-end with PHP (Laravel and Codeigniter).
- Explored Next.js for server-side rendering and improving front-end performance.
- Actively participated in debugging and resolving issues, gaining deep insights into software development lifecycles.
- Contributed to deploying applications using Docker, and collaborated on improving internal development workflows.

PROJECTS

storage.silocloud.io ([Try it here](#))

Objective: To create a user-friendly storage management system that allows users to easily manage and organize files.

Responsibilities

- Developed the front-end using React to ensure an interactive and responsive user experience.
- Built and integrated APIs in Laravel to handle file management operations such as uploading, editing, and deleting files.
- Collaborated on optimizing the performance and security of the storage system.

silotalk.com ([Try it here](#))

Objective: To provide a seamless chat and video calling platform with secure, scalable video communication using open-source tools.

Responsibilities:

- Built the application using Next.js for both server-side rendering and client-side functionality.
- Integrated Jitsi for video conferencing, self-hosted using Docker to allow flexible and scalable deployment.
- Utilized Firebase for real-time messaging, ensuring smooth and responsive chat features.
- Ensured real-time messaging and video features were implemented smoothly for an optimal user experience.

silocloud.com ([Try it here](#))

Objective: To build a cloud application offering scalable and secure cloud management solutions for users.

Responsibilities:

- Contributed to both the front-end and back-end (Codeigniter) development, handling key features and functionalities.
- Designed and optimized APIs to improve the efficiency.
- Worked on improving both the user interface and system performance for a smoother experience.

librium.tech ([Try it here](#))

Objective: To design a static website that delivers a modern and visually appealing interface for users.

Responsibilities:

- Developed and designed the UI to be clean, user-friendly, and responsive.
- Focused on optimizing loading times and enhancing user engagement through interactive elements.

EDUCATION

Bachelor of Computer Science (BCS)
Shivaji University, Kolhapur – Currently
Pursuing

SOFT SKILLS

- Teamwork
- Communication
- Problem-solving

LANGUAGES

- Marathi (Fluent)
- Hindi (Fluent)
- English (Fluent)
- Kannada (Understand fully, speak 5%, no reading and writing)
